About California Proposition 65

California's Proposition 65 entitles California consumers to special warnings for products that contain chemicals known to the state of California to cause cancer and birth defects or other reproductive harm if those products expose consumers to such chemicals above certain threshold levels. Liberty Pumps cares about our customers' safety and the environment, and makes every effort to reduce and eliminate the use of harmful materials.

Why has Liberty Pumps placed a Proposition 65 warning on its products?

Liberty Pumps has chosen to display the Proposition 65 warning based on the possible presence of one or more listed chemicals, without evaluating the level of exposure. The level of exposure for our products may be negligible or well within the "no significant risk level." However, to uphold Californian consumers' rights to make informed decisions, we have opted to place the following Proposition 65 warning on all of our products.

 **WARNING: This product may contain chemicals known to the State of California to cause cancer and birth defects or other reproductive harm. www.p65warnings.ca.gov**

Some examples of these chemicals are:

- Lead, Chromium, Nickel – may be present in metal components
- ABS (Acrylonitrile-Butadiene-Styrene), Carbon Black, Vinyl Chloride – may be present in plastic components
