A Family and Employee Owned Company

## Buy American Act

---

**Date:** July 14, 2022

Pages: 1

**To:** Liberty Pumps, U.S. Distributors

**From:** Randall Waldron; V.P. of Sales & Marketing

**Subject:** BAA - Buy American Act

**This document is provided for purposes of government contracts and federal procurement of material and those needing to meet BAA requirements. It is not to be confused with the ARRA or the FTC's "Made-in-America" requirements.**

Dear Valued Customer:

Liberty is proud to be a U.S. manufacturer – supporting the American worker! With over 90% of our products meeting the requirements of the Buy American Act, and being assembled in Bergen NY, USA, you can be assured that by purchasing our products, you are supporting U.S. jobs and families throughout an entire supply chain. Whenever possible, we purposely source a majority of our components from companies right here in the U.S., so by purchasing our products, you are not only helping those within the Liberty family, but the families of many across the country.

**All of Liberty's products meet the requirements of the Buy American Act (B.A.A.) with the exception of the following:**

- S30-Series Sump Pumps
- LCU-Series Condensate Pumps
- 260-Series Utility Pump
- Ascent II Macerating toilet system (assembled in USA, but does not meet the required minimum US component content.)

Sincerely,

A handwritten signature in black ink that reads "Randall Waldron".

Randall Waldron

Vice President of Sales & Marketing  
Liberty Pumps
